

CAMP ELMORE DIRT PATROL VOLUNTEER NOTICE “BE PART OF SCOUTING’S FUTURE”

The mission of the DIRT PATROL is to ensure that Camp Elmore continues to “grow” into a wooded environment that our scouts can enjoy and learn from.

This mission is long term and ongoing. It begins by removing exotic trees and plants. It continues by planting only NATIVE trees and plants.

The DIRT PATROL has a nursery in the southwest corner of the camp that is growing slash pines, florida maples, bald cypress, oaks, palms, and several other species. Also in the nursery is a Composting Bin where banana peels, apple cores, egg shells can be placed. Absolutely NO garbage.

The DIRT PATROL is seeking volunteers that can assist with our mission. By signing up you will be placed on the email list. You will be advised of work dates both during the week and Saturdays. The schedule will vary and it is understood that personal and scouting conflicts will occur. Help out when you can. Service Hours certification forms available for students that may need them. Thank you for your support.
